

Aprendendo as Cores

EBOOK DE ATIVIDADES

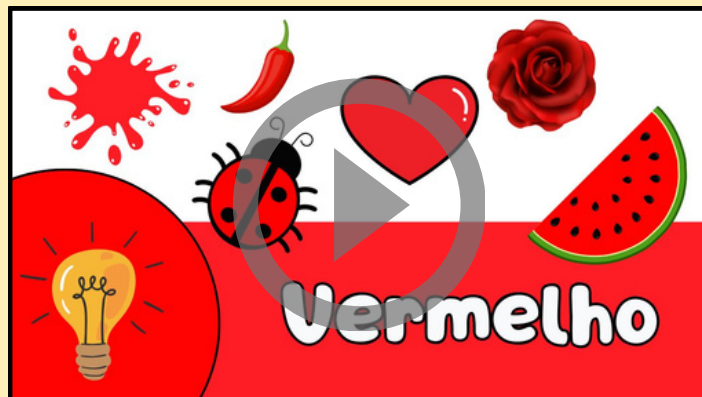

Mamãe Noob

Ensinar as cores para as crianças é um passo fundamental no desenvolvimento da percepção visual, da linguagem e da criatividade. Quando esse aprendizado acontece de forma lúdica, com brincadeiras, desenhos e atividades divertidas, as crianças se envolvem mais, aprendem com facilidade e criam conexões positivas com o conhecimento. Explorar cores no dia a dia também ajuda a desenvolver a atenção, a coordenação e a imaginação.

Para tornar esse momento ainda mais especial, convidamos você a assistir à nossa playlist de vídeos infantis sobre as cores em nosso canal no YouTube. Lá, você encontrará conteúdos divertidos e educativos para reforçar o aprendizado de maneira leve e alegre. Venha aprender e se divertir com a gente!

Atenção:

O anil é uma cor que fica entre o azul e o roxo. Ele é um azul mais escuro, puxado para o roxinho. E o violeta é uma cor parecida com o roxo, formada pela mistura do azul com o vermelho. Ele é um pouco mais claro e mais "vivo" que o anil.

Cor Primária e Secundária

As cores primárias são as cores principais, aquelas que não podem ser formadas pela mistura de outras cores. Elas são como "cores mágicas" que usamos para criar várias outras! As cores primárias são:

Vermelho

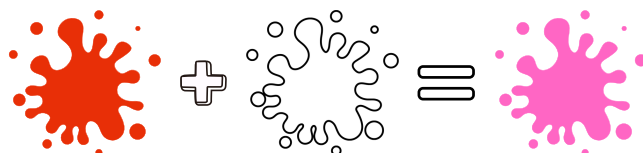

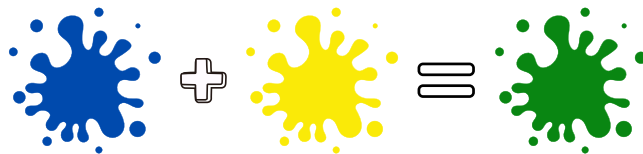

Azul

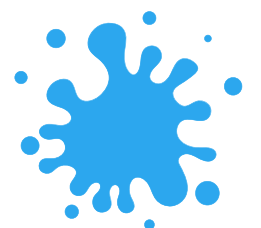

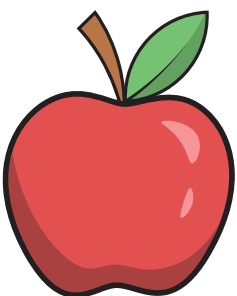

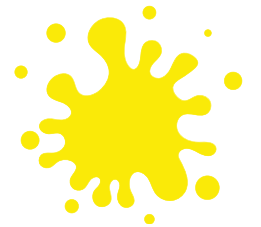

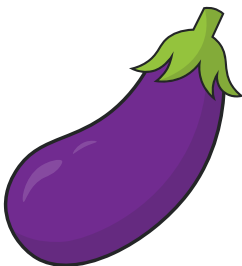

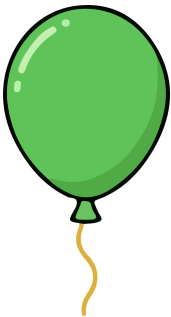

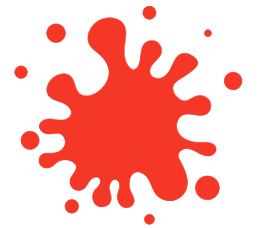

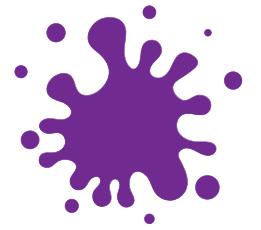

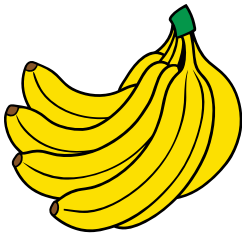

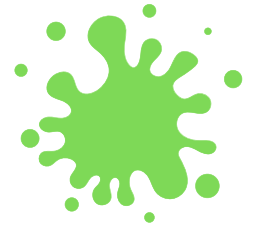

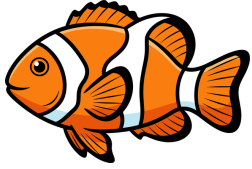

Amarelo

Já as cores secundárias aparecem quando misturamos duas cores primárias. Veja alguns exemplos:
